STUDENTS-TEACHERS COUNSELLING SCHEME

The main object of the scheme is to bring out some qualitative changes in terms of curricular and extra curricular activities in the student's life and fulfill their cherished goal of becoming successful professionals to meet their future challenges.

We would like to introduce the scheme explaining the working procedure and role of the teachers who are endeavored to improve the career of the students in our institution.

Teachers act as guardian of the students. Their job in certain below mentioned key situations is elaborated here:

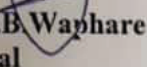

In the modern era many of the students are moving from one state to another for taking education; due to non-availability of the quality education in some parts of the country. So it is quite natural that students from far off place have to face many problems as they are away from their homes.

The present scheme is for giving the moral support & help students to resolve their academic & Non academic problems like homesickness, language barriers, meals, water, weather etc.

The situation has altered us to guide and assist to get over the problems of students as the students badly need timely assistance and proper guidance not only to improve the career prospects of students but also to help a lot to accomplish their set objectives, our guardian teachers play a vital role.

Every Guardian teacher is entrusted a batch of 20 students. Guardian teacher acts as a friend and a guide of the students. The institute provide all necessary assistance and students are expected to maintain strict discipline in the campus. Guardian teachers have to conduct regular meeting with their batch students and get them acquainted with day to day problems of the students. Guardian teachers has to act as mentor & counsel the mentee's and communicate the problems to the class teacher. The class teacher will report the problems of all the batches of his/her class to the concern head and then, they will obtain the solution for the same. Guardian teachers will communicate the parents of the concerned students as and when the parent's help is necessary or in the event of low attendance as per the university norms.

The scheme will be successful only when students, parents and teachers together take keen interest and keep themselves in regular touch with one another. The success of the scheme depends on the co-ordination of this three-tier system.
