Innovation Club Report

Innovation Club was established in A.Y. 2018-19 to to create awareness, educate, nurture and inculcate a culture of **innovation** amongst students and to enable them to generate new ideas and become more **innovative**.

Under the roof of innovation club 41 students (7 teams) participated in Smart India Hackathon 2019. Smart India Hackathon 2019 is a nationwide initiative to provide students a platform to solve some of the pressing problems we face in our daily lives, and thus inculcate a culture of product innovation and a mindset of problem solving.

SIH-2019 was conducted in 3 levels. First level was idea submission, second level was prototype preparation and third level was grand finale. In the first level of SIH- 2019, total 8 teams participated and presented 24 different ideas addressing various issues under different categories. Out of 8 teams, one team got selected for next level of prototype presentation. Under the guidance of Prof. Vaibhav Galbale, Prof. Ranvir Ghate, Prof. Madhukar Wahare and Prof. Aniket Nagane, in second level team UGAM developed the prototype model for project titled "Automatic Traffic Signal Control for Ambulance".

In-House Development of PA(Public Address) System

By

Department of Electronic Science

A 250 Watts PMPO PA system with 2 Speakers has been developed as a project by students of F.Y. B.Sc. (CS) for the Academic year 2018-19 at Department of Electronics, MIT Arts, Commerce and Science College, Alandi.

Objective:

The Project undertaken by Department of Electronics to expose students with practical applications of different electronics circuits, as well as to develop self sufficiency among the students for developing electronics equipments which are useful for them and college also.

Expected Outcomes:

After completion of project it is expected from the students that they would be able to Design and Develop the PA system on their own skills with different specifications. Also they would learn to find problem statements in their learning environment and its solutions with responsibility towards the college.

Description about Workshop:

The project was totally financed by students, total 28 students from F.Y.B.Sc. (Comp. Sci.) MIT ACSC, Participated in this project. Students collected Rs. 500 each for the purchasing of raw material. The work started with meeting between students and faculty members, where teachers discussed the need of High-Fidelity PA system with students, accordingly action plan, Specifications, component list was discussed and prepared. Prof. Ranvir Ghate, Prof. Sunil Mahajan and Mr. Shakil Nadaf were present for this meeting. The design was finalized during the meeting.

The quotations from many vendors were referred for purchasing of components and a quotation of Rs. 16600 was finalized. After receiving components, actual work started with assembling of 2 sound boxes, where discrete components like 100W high magnet speakers, voice coil, flat spiders, paper cones and horn tutors were assembled in every speaker cabinet. 15 feet wires are used for the purpose of connections.

Second phase of project started with construction of power supply and amplifier circuit, In which students are introduced with the components being used for amplifier circuit and power supply circuit as well as different hardware interfaces to the amplifier like Bluetooth circuit, USB circuit, MicroSD slot, Mike Sockets, AUX Socket, Volume control knobs, Bass and treble control knobs and Audio In/Out Socket. All these connections were made by students with the help of Project guide Prof. Ranvir Ghate and Technical Expert Mr. Shakil Nadaf.

In third phase of project the sound boxes were connected with the final amplifier circuit and the complete system was rigorously tested by playing different audio samples through each and every interface given to the system. Finally the toughest part of the project i.e. packaging or enclosing of amplifier circuit in a metal cabinet was completed by the students, and project was tested once again.

The project was inaugurated by the Principal of MIT ACSC Dr. B.B.Waphare by playing VishwaShanti Prayer through the mobile phone Bluetooth, in Presence of Principal of B.Ed. College Prof. Surendra Herkel, HoD of Computer Science Dept. Prof. Rashmi Lad, and HoD of Electronics Department Prof. Sunil Mahajan. The Specifications and information regarding journey of the project was explained by Prof. Ranvir Ghate with PPT presentation. Finally handovering of project to the college was declared. The efforts taken by students were appreciated by giving certificate of appreciation with the hands of Principal Dr. B.B.Waphare.
