**Abstract**

*Indian educational system is changing very rapidly as changes were took place in industry and business. India has the second largest educational system in the world. A focus on quality access and relevance of higher education to achieve the social transformation for sustainable economic development of the country has been the national priority. Educational system of the country more focus on student learning, grooming and exposure to the world of business. It is competition oriented. Industries expecting more practical oriented, approach oriented skilled human resource. Revaluation in information technology was one the core reason to think educational system differently. Education now a day is matter of socio economic importance. Implementation of best practices in teaching positively impacts students by providing motivation to learn and promoting success in a global world. Savitribai Phule Pune University f-om the academic year 2013-14 started semester pattern with choice base credit system.*

**Key Words:** Best Practices, Credit System, Education, Examination etc.

**Introduction to best Practices:** A twenty-first century world that will be very different from the one in which we were educated. To survive in a new, globally competitive world, today's students will need reasoning ability, presentation skill, creativity, problem-solving abilities, a passion for learning, a dedicated work ethic and lifelong learning opportunities. Students can develop these abilities through instruction based on Best Practice teaching strategies. Choice base credit system is a comprehensive development program which design for the all round development of the students. Program concentrates on student behavior, skills, knowledge, students participation etc. students are the largest group within in college and institution and therefore main stakeholder who have strongest voice any other stakeholder. Best practices are applicable to all grade levels and provide the building blocks for instruction. Best practices motivate, engage and prompt students to learn and achieve. Savitribai Phule University of Pune keeping in mind the best practices introduces Choice Base Credit System in Master of Commerce (M.Com) syllabus. University restructures the syllabus to stand in the competitive environment. Commerce education is very important considering the 21<sup>st</sup> century development in the industries, these industries expecting changes and advance students for employment, choice base credit system put these input in the student during the college days as soon as they get degree, they will be ready to work without any induction program from the company. Whenever a new employee recruited in the company, he has to provide initial training to get comfortable in the company these program include excel knowledge, software handling, office behavior, vision mission of the company, rules and regulation of the company but with the help of credit system students will learn these skill during the curriculum. The choice base credit course program considers desire aptitude, attitude and acumen of the student. This system offer a flexible user
