Report on Best out of Waste

Date: 30-Jan-18

Objective- The objective of the competition was to create love for environment by making best out of waste with help of recyclable things.

Description- "Creativity, as has been said, consists largely of rearranging what we know in order to find out what we do not know. Hence, to think creatively, we must be able to look afresh at what we normally take for granted."--- George Kneller. BEST OUT OF WASTE is one such craft which follows this environmental friendly principle and at the same time creates useful and picturesque objects out of waste products. In order to make students aware of uses of waste material, and to give them a lesson on reducing waste to save our future, a 'Best out of Waste' competition was organized for students. Imaginative minds came together in a creative burst of energy. Mind-blowing, beyond expectation, fantabulous ideas were demonstrated by students. They prepared very creative and innovative models and art items from different waste materials. They used reusable and recyclable materials like news papers, shoe boxes, bangles, ice cream stick's and much more. From these items, they created an amazing array of display items and useful everyday objects leaving everyone totally impressed. The values like preservation, recycling, conservation, reduce, reuse etc are imbibed on the young heart and minds by demonstrating this noble act of caring our environment. It helped the students to develop their fine motor skills while using different kinds of material and also encouraged them to use waste material for making decorative and useable items. It was amazing to see how scrap could be transformed into such useful and beautiful articles. There were 10 participants in this event.

Outcome: This event brought nice ideas to students and make them able to think themselves on such ways of reusing everyday materials that will not only reduce the waste but provide them with useful household products. The idea will not only be of economic and material value for students, but will be helpful in creating environmental consciousness among them that is the need of the hour.

Report on Minute To Win It

Date: 31-Jan-18

Objective - The Minute to Win It team building event is a great way to build team spirit with fun games. To develop mental ability of student.

Description- Minute to Win It games can be played and scored in several different ways and can be adjusted depending on the size of group. Typically, games are played individually at smaller parties (around 6-8 guests) and in groups at larger. In individual games, the player will try to race the clock (set at one or two minutes depending on the age of the party guests and the difficulty level of the challenge), and points will be awarded based upon whether or not the challenge is completed before time runs out. For these individual games, we usually opt to have players score 5 points if they complete the task on time, 0 if they do not. It is one of the games which ends up in limited time duration and thus it makes more interesting. There were 50 participants.

Outcome: students should be able to face variety of challenges which have to be completed in one minute.
