### Training Report

As a part of Faculty Development Program (FDP) and as per the guidelines by Savitribai Phule Pune University, we at MIT ACSC, Alandi (D), Pune has organized a day long training program on "Development of Interpersonal Skills" for Teaching & Non-Teaching Staff in the college auditorium on Friday, 28<sup>th</sup> April, 2015 for teaching & 29<sup>th</sup> April 2015 for Non-Teaching between 9:00 a.m. to 5:00 p.m.

This training was delivered by Ms. Sharad Sunkar, a Corporate trainer from Pune. The training program was totally based on activities for learning and development. The main focus was on Egogram. He had categorized people among following categories of ego. With the egogram analysis the faculties came to know about their strength and weakness and helped to realize different personalities and their characteristics. He also focused on team work. By giving different examples how the assigned work can be completed smoothly on time in a team work by knowing different characteristics of people involved in that team. Some real time examples were given to prove this.

The program was appreciated by all teaching and non-teaching staff. It helped them to handle different kind of people in personal and professional life in appropriate manner.

2	07/02/2017 2:45pm to 3:45pm	Prof. Archana S. Aher	Awareness of Human Rights	<p>Human rights are moral principles or norms that describe certain standards of human behaviour, and are regularly protected as legal rights in municipal and international law. They are applicable everywhere and at every time in the sense of being universal, and they are egalitarian in the sense of being the same for everyone. They are regarded as requiring empathy and the rule of law and imposing an obligation on persons to respect the human rights of others, and it is generally considered that they should not be taken away except as a result of due process based on specific circumstances. Universal Declaration of Human Rights has established certain norms for living. It is necessary to spread the awareness about these norms for creating harmony in the society. Also necessary for promoting dignity, tolerance and peace, by educating individuals and groups to respect, defend and advocate for their rights.</p>	38

1

				The idea of human rights suggests that "if the public discourse of peacetime global society can be said to have a common moral language, it is that of human rights."

## Report of Lectures under Staff Academy

2017-18

As a part of Staff Academy, we at MIT ACSC, Alandi, Pune has organized various lectures for teaching staff in the College for the academic year 2017-18. The details of lectures are as follow:

Sr. No.	Date and Time	Name of Speaker	Topic	Abstract/Points Discussed	Number of Audience
1	11/07/2017 2:45pm to 3:45pm	Prof. Diksha Kadam	An Overview of Orientation Programme	<p>The Orientation programme is of four weeks duration with a minimum of 24 working days and 144 contact hours (six hours per day). The objectives of our HRDC are met by structuring our Orientation Programmes into four components:</p> <p>COMPONENT A: Awareness of linkages between society, environment, Development and education.</p> <p>COMPONENT B: Philosophy of education, Indian education system and pedagogy</p> <p>COMPONENT C: Resource awareness and knowledge generation</p> <p>COMPONENT D: Management and personality development</p> <p>OBJECTIVES :</p> <p>To understand the linkages between education and economic and socio-economic and cultural development, with particular reference to the Indian polity where democracy, secularism and social equity are the basic tenets of society</p> <p>Acquire and improve basic skills of teaching at the college/university level to achieve goals of higher education; Keep abreast of the latest developments in their specific subjects</p> <p>Understand the organization and management of a college/university and</p> <p>To perceive the role of teachers in the total system; utilize opportunities for development of personality, initiative and creativity; and g. promote computer literacy as well as Internet knowledge.</p> <p>The topics that are covered under each segment are:</p> <p>Education, Social justice and Social reforms, Environmental</p>	38

				awareness and biodiversity, Role and responsibility of a teacher, Human Rights, Disaster management, Science and society, Gender issues, Media and society, Secularism, Understanding the culture and society of North Eastern region Consumer rights and responsibilities, HIV/AIDS, Field visit to any distress centre.	
2	25/07/2017 2:45pm to 3:45pm	Prof. Diksha Kadam	Understanding Learning Styles For Effective Teaching	<p><b>Purpose:</b> _To learn about learning styles. To understand the differences between auditory, visual and kinesthetic learners To identify your own learning style</p> <p><b>Content covered :</b> There are three basic types of learning styles. The three most common are visual, auditory, and kinesthetic. To learn, we depend on our senses to process the information around us. Most people tend to use one of their senses more than the others. Today's lesson will help you determine which of these learning styles you rely on the most</p> <p>Questions to ask your student: How could knowing your learning style be of benefit to you, personally? 2. How can it be helpful in your interactions with others? 3. How do you think this could help you in your studies? 4. How do you think this could help you in lectures? 5. How do you think this could help you in note taking</p> <p>Conclusion with Questionnaire distribution and analysis of it</p>	30
3	12/09/2017 2:45pm to 3:45pm	Prof. Bhalchandra B. Pawar	Development of Smart Charging system for Lead Acid Batteries in Electric Vehicle	With the lack of centralized power grids, lead acid batteries have taken the place of one of the main energy sources available. Lead-acid batteries are finding considerable use as both primary and backup power sources. For complete battery utilization, the charger circuit must charge the battery as FAST as possible, efficiently. With this in mind, our objective is to design a cheap, versatile and Smart (Fast + Efficient) lead acid battery charger which will interest and appeal to the "time-conscious" customer.	29

				Any lead acid battery can be charged fast enough with equal to, less than or greater than current of its rating, until we can avoid overcharging of it. The Smart (Fast + Efficient) Charger is fast charging concept for lead acid batteries (LABs), with smart i.e. efficient charging. A fast charger will consist of (Constant Current-Constant Voltage power supply) + (Battery Voltage and Current Monitoring device) + (Temperature Monitoring Device) + (Circuit Voltage and Current regulator device). Through Charging if we can monitor the battery and keep it under lower threshold voltage (LTV) and warn user that it need recharge, then we can make an efficient charging system which can improve the charging time and battery life. But problem with this solution is that we are reducing the battery usability range. Now user can only use battery capacity from 50% to (80% or 100%) while earlier it has usable range from 10 % ( Dead) to 90% approx. The negative point is that now user need to require larger battery capacity to cover up similar distances. The plus point is that we are increasing the battery life and charging efficiencies by keeping the battery in between 50% of capacity to 85% of capacity. This will reduce the loss in long run of system.	
4	27/04/2018 10:00am to 11:00am	Prof. Manasi Atitkar Prof. Abhijit Netke Prof. Deepak Sahoo Prof. Pravin Kharat	GST: Awareness Program	An Prof. Manasi Atitkar has gave the introduction of overview of GST. Prof. Abhijit Netke has discussed the following points: GST treatment, input credit, registration portal of GST, etc. Prof. Deepak Sahoo has discussed about GST process, computer and tally entries, IT rules. Prof. Pravin Kharat has gave the conclusion of lecture.	52

**Faculty Development Program (FDP), 2017-2018**

**Report**

We Department of Library & FDP (Faculty Development Committee) jointly organized a One day Practical Oriented Workshop on "Citation Management Tools: Zotero & Mendeley" for Teaching & Non- Teaching Staff in the college on Saturday, 25<sup>th</sup> November, 2017 between 10:00 a.m. to 4:30 p.m.

This hands on training workshop was delivered by Dr.Sunita Barve(Senior Technical Officer from CSIR-National Chemical Laboratory). This training program helped faculties to manage bibliographic data, citation and related research material in a systematic way. She mainly focused on how to use Zotero & Mendeley easily while writing thesis or articles & managing references. Publishers demand different style formats while citing any reference in that book/research paper/thesis. Zotero/Mendeley is free/open source reference manger tools which help researchers to generate citations/bibliographies easily

**Individual development always leads to the organizational development**

and allow them to cite while writing a paper or thesis or a book. These software provide different features and these are used across the world by the researchers. Zotero/Mendeley allows generating citations/bibliographies in the style of your choice. Zotero /Mendeley has a large number of style sheet formats available across the world.

She explained all the features of both the tools which help everyone to understand the tools easily. Practical session conducted by her helped faculties to systematically identify, organize and use the scholarly literature. Faculty members also learned how to manage the numerous PDF files they already have in a proper way and how to add notes and annotations to them.

The hands on training were divided into 4 sessions. In first session, Dr. Sunita Barve explained all the theoretical concepts of tools: Zotero and Mendeley. In the second and third session, she explained all the features of Zotero & Mendeley respectively . The last session was of question-answer. She clarified all the doubts practically and orally.

## Training Report

As a part of Faculty Development Program (FDP) and as per the guidelines by University of Pune, we at MIT ACSC, Alandi (D), Pune has organized a Seminar on "Intellectual Property Rights" for Teaching and Nonteaching Staff in the college on Wednesday, 22<sup>nd</sup> November, 2017 between 10:00 a.m. to 12:00 p.m.

This speech was delivered by Prof. Bhushan Mehare Assistant Professor at MIT SOM. This training program helped faculties to understand all the intellectual rights of a human being in India. He defined the term as "Intellectual property rights are the rights given to persons over the creations of their minds. They usually give the creator an exclusive right over the use of his/her creation for a certain period of time." He mainly focused on trademarks, copyright, patents, industrial design rights.

Individual development always leads to the organizational development

In the first few minutes he talked about WIPO (world intellectual property rights) .He said WIPO was created in 1967 "to encourage creative activity, to promote the protection of intellectual property throughout the world. Then he explained in detail about what is patent, why are patents necessary, what kind of protection do patents offer, what rights do patent owners have, how patent is granted, what role do patents play in everyday life, what kinds of inventions can be protected, who grants patents etc . This will help researchers to file the patent in near future. He then explained in detail about is trademarks. What do trademarks do, what kinds of trademarks can be registered, how a trademark is registered etc.
