generally don't hasten to enter the job market after graduation—their progression is towards research institutions of higher learning. The college has thought through every little thing—from the labs to the space for conducting research activities and collaborative work where students love to spend hours working on several projects.

There is no dearth of opportunities for students spending their three years at Miranda. The institute

curates programmes such as the science conclave and numerous seminars. Students from the science departments also visit research organisations to get training, undertake field trips, excursions, summer projects, internships that develop their intellectual rigour, practical, analytical and problem-solving skills. Having completed their BSc from the college, students from Miranda go out into the real world equipped with the ability to

apply the knowledge that they have acquired in its hallowed classrooms. Ask Manisha Yadav, who was part of the 2016 batch of chemistry students in the college. "Miranda helped us build a whole empire of abilities," she says. "Not only did the college teach us to be self-sufficient but it also fortified us with the skills to manage the personal-professional sphere with equal aplomb. Miranda was the place I fell in love, both with people and with myself." ■

they develop their voice and their opinions," says Bansal. Jha adds that there is a healthy balance of academics and extracurricular activities, but adds that there is scope for improvement. "I think we could really increase the amount of sports that we have in our college. Right now, sports is not really a focus area," she says. With new initiatives on the campus, Mirandians are encouraged to work on a number of projects apart from their syllabus. "The students and teachers are such a close-knit community here, and the amount of effort the faculty puts in to improve us is amazing," says Jha. *

Rankings are based on objective and perceptual survey data. Only colleges that offer a full-time undergraduate programme and which submitted objective data of minimum three graduated batches were ranked. All scores have been rounded off to one decimal place, this may result in rounding-off errors while adding the parameter-wise scores. The colleges not ranked during perceptual survey have got nil marks in perceptual score

Rankings are based on objective and perceptual survey data. Only colleges that offer a full-time undergraduate programme and submitted objective data of minimum three graduated batches were ranked. All scores have been rounded off to one decimal place, this may result in rounding-off error while adding the parameter-wise score. Colleges not ranked during perceptual survey have got nil marks in perceptual survey.

MIT Arts, Commerce and Science College

Rendering a Creative Academic Environment to Nurture Talent for Development of Professional Skills

The institute aims to deliver world-class learning facilities with an excellent ambiance for academics and research conjugated with a vibrant environment for honing the extra and co-curricular skills.

MIT Arts, Commerce and Science College, Alandi (D), Pune, was established in 2007 under the aegis of Maharashtra Academy of Engineering and Educational Research (MAEER) Pune. The founder of the MIT group, Prof. (Dr.) Vishwanath Karwad took an initiative to impart quality education with easy access to the young generation in the rural area and the mission for excellence in education. The college started with only 17 students in BCA course, whereas in 2019, it has grown to 1838 students in seven different courses catering to the dynamic need of diversity of education in various fields. MIT has an excellent reputation as a leader and is a pioneer in spreading education to a wide community with its rich academic and

cultural heritage, which contributes to developing noble citizens to serve society.

Top-Notch Infrastructural Facilities

The college campus spreads over 4 acres in a beautiful and peaceful atmosphere at pilgrim place of Alandi near Indrayani River where Saint Dnyaneshwar, the poet and philosopher, devoted his life in establishing rationality of reason. The efforts are made by the institute to create a world-class infrastructure with latest technological advancements. Smart classrooms with a spacious place, hygienic washrooms, purified drinking water, canteen, high-quality surveillance CCTV cameras, ladies room, sports ground, digitalized

library, well-equipped computer labs with internet center, and so on are provided to the students.

Pursuing Academic Excellence

MIT primarily focuses on bringing excellence in education and research. The college is continually focusing on the holistic development of students. It actively helps all students to use their skills and knowledge to perform well in college so that they may also perform professionally in the industrial workplace. The college offers various facilities to the students including:

- Providing continuous mentorship to the students, where students can interact with the mentor and discuss their problems. This strategy is

extremely helpful in resolving many issues like problems at home, low parental support, and low confidence.

- The college provides financial support to the students via merit scholarship and helps financially weaker section of students by allowing them to deposit fee in installments.
- Conducting remedial classes for slow learners to align them with the rest of the students of the class.
- Conducting bridge courses to connect the gap between acquired knowledge and prerequisite knowledge for the course and to overcome technical difficulties.
- Providing soft skills training for the students' development.

The Road to Glory

The institute has achieved numerous laurels for its dedicated endeavors. The various landmarks that it has achieved throughout its illustrious journey include:

1. *Best College Award* (University Level) for three consecutive times (2015-16, 2016-17, 2017-18) by Savitribai Phule Pune University, Pune.
2. Its Department of Computer Application was awarded 2nd Rank in Pune and 18th rank in India by India Today – MDRA for the year 2018.
3. Its Department of Computer Science has received 3rd rank in Pune and 94th in India by India Today – MDRA for the year 2018.

Collaborative Endeavors

The college has signed MOUs with many institutions to ensure academic and career

enhancement of the students. These institutions include:

- College of Computer Accountants- Add on courses on Tally ERP and advanced excel
- Cognitive Exchange organization based out of Folsom, California, USA- Every Saturday, sessions are conducted on how to deliver a speech and how to improve leadership quality and communication
- IGATE Global Solutions Ltd.- Faculty development program for teachers.
- Vishwakalyan Bahu Uddeshiyu- Conducted computer training and awareness program.

Career Development Initiatives

The college has a very efficient Training and Placement Cell. It helps students to understand, realize, and develop employability skills and provides training for interview techniques, aptitude test, and self-presentation. The institute's Entrepreneur Development Cell aims to develop the spirit of entrepreneurship among the students. Various activities of this cell include creating awareness programs, mentoring students, and assistance in receiving financial support for start-ups.

MIT also focuses on motivating and guiding students for various competitive examinations such as MPSC, UPSC, Bank PO, and so on. Additionally, it also conducts guest lectures by alumni and government officials, and inter-college competitions based on topics related to competitive examinations. Moreover, the Research and Development Cell motivates students to participate in conferences/seminars and present & publish their research papers in conferences and journals. 

The Responsive Principal
