

District Level Workshop on “Printed Circuit Board Designing and Electronic Project Development”

District Level Workshop on “Printed Circuit Board and Electronic Project Development” was conducted on **Saturday 29/02/2020** by **Dept. of Electronic Science and Student Development Cell**, total 36 students from B.Sc. (Reg) and B.Sc.(C.S) of MIT ACSC attended this workshop. The workshop was started at 9:30AM on **29/02/2020**. The workshop was inaugurated by the Principal of MIT ACSC **Dr. B.B. Waphare**, in Presence of **HOD’s of various Departments**, HOD of Electronic Science **Prof. Sunil Mahajan** and Faculties of Dept. Of Electronic Science.

An Inauguration ceremony was followed by introduction of students with the different Electronic projects by the faculty members and PCB Designing software tool (Express PCB). Students designed PCB layouts of their allotted projects, exposed it on Copper Cladding board and completed the etching process to get the desired Printed Circuit board. students completed drilling of PCB’s and finally projects were tested by faculty members, Prof. Shubhangi Gaikar, Prof. Vandana Pagar, Prof. Pallavi Mahagoanakar, Prof. Sandip Dhavale and Prof. Vaibhav Galbale and accordingly suggestions are given by them for troubleshooting of the circuits. Valedictory function was conducted and certificates are given to all participants.

Feedback:

Feedback of this workshop is taken by providing feedback forms to the students; students get very much satisfied according to feedback.

The workshop was co-ordinated by **Prof. Ranvir Ghate** & Conducted under the guidance of HOD of Electronic Department **Prof. Sunil Mahajan**.
