Academic Year 2023-24

Report on " How to prepare for Technical Interviews " Guest Lecture

Objectives:

The main objectives for conducting the Guest Lecture are:

- 1) To make the student aware about the importance of technical interviews.
- 2) To know the needs of different technical skills due to rapidly changing technologies in the IT industries.
- 3) To know about how to prepare for technical interviews to face the industries challenges.
- 4) To know about time management skills, aptitude skills, mindset, & confidence.
- 5) To make aware the student to understand their capabilities and skills to develop the applications across different domains.

Activity Details:

Computer Application Department organized a guest lecture on "How to prepare for Technical Interviews " on 14th October 2023 from 11.0 am to 1.00 pm in seminar hall.

A total no. of 60 students from TYBBA(CA), and M.Sc. (CA) participated.

Male student participants:34, Female student participants: 26

The resource person for the guest lecture was **Mr. Sainath Choudhary**, Lead Software Engineer, Nihilent Ltd, Pune. The session began with a prayer and warm welcome of the resource person by Prof. Akshada Kulkarni, Vice Principal and Dr. Vikas Mahandule, Head of the Department. **Mr. Sainath Choudhary** started the session with different real-life examples regarding the need of different technical skills. He explained the need of recent technical skills must be possessed by the students to accept the coming challenges in the IT industry. He also thrown light on how to prepare for aptitude test. He illustrated about time management skills, aptitude skills, mindset, & how to build confidence with very good examples. Also, he shared and discussed about few online sources regarding technical and aptitude tests.

The guest lecture was very useful, informative and interesting from the placement point of view.

Outcomes:

- 1) Students gained a better understanding about need and importance of technical interviews.
- 2) Students got the opportunity to meet and connect with experienced IT professional.
- 3) Students came to know about time management skills, aptitude skills, mindset, & how to build confidence.
- 4) Students have become aware about how to make use of their capabilities and skills to develop different applications across different domains.
